THE ART OF SUSTAINABILITY

Visions understands the necessity of creating unique, trending awards that are environmentally friendly.

Through this social conscience, we have designed products featuring sustainable materials such as cork, coffee-stained mahogany, and steel, to help protect our environment. Our awards make a lasting impression on their recipients without making one on our beautiful planet.

As a company, we strive to go beyond awards with products that fit any recognition need. With the ability to design and manufacture our own products, Visions uses a plethora of unique materials and processes to create the most cutting-edge awards to help boost morale, recognize years of service, or even allow employees to congratulate each other through a peer-to-peer recognition program.

Provide unique and sustainable awards that stand out among the rest and are planet friendly.

Reference our *What's New* and *What's Trending* section that highlight our sustainable products and more.

PROJECT LYNK CASE HISTORY

Take your tangible award to the next level. Project Lynk technology gives the ability to link video and other sources to an award.

A mortgage company instituted a Sales Achievement Award Program. The CUBED was distributed to the company's mortgage brokers at the beginning of the year. The brokers who reached their goal for Q1 received a corresponding magnetic attachment with a QR code on the back. When the QR code was scanned, there was a video message from the company president congratulating them on their achievement.

For the brokers who hit their Q2 goals, a Q2 magnetic attachment will be sent, with a different video message from the president. The same was done going forward when subsequent quarterly goals were met.

If a broker received all 4 quarterly magnetic attachments, they were inducted into the President's Club for their outstanding sales achievements.

At Visions, we're continually pushing the limits and creating new and trend-setting awards. Our goal is to make sure employees and clients are recognized with top-of-the-line awards to promote accomplishments, specific milestones, and more. We have designed new, sustainable, and innovative awards that will make any recognition program or event stand out.

“ It has been found that employees who are recognized are 63% more likely to stay at their current job. Building a strong recognition program that emphasizes tenure can help employee retention. ”

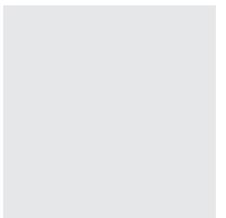

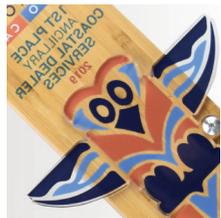

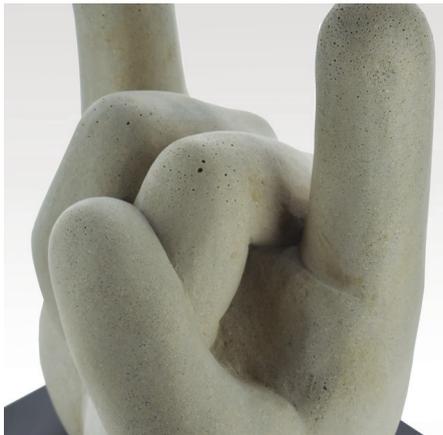

“

We always receive great service. Customer Service is awesome and also quick turnaround is fantastic. I enjoy working with your company!

- Dave

”

Visions has a variety of awards that showcase the uniqueness of each employee. We take your company's characteristics and create a recognition program that is custom to your employees' achievements. Increase productivity and profitability, enhance the overall work environment, and retain employees by recognizing accomplishments when it matters.

THE ART OF LIFE

PRESERVE LOYALTY AND MORALE.

It is necessary to build a positive atmosphere in the workplace, but even more so to maintain and cultivate it.

This can be done through employee recognition. Rewarding employees for upholding the company's values and ideologies will encourage them to continue doing so. When individuals strive for greatness, the company as a whole will flourish. Bolster these exceptional efforts in performance, years of service, and other accomplishments with tangible awards. Start a recognition program today to preserve loyalty and morale among employees.
